MARKET LEADER IN
FEED CONVEYING

Infini-T™ Auger

The World's **First** Continuous Length Auger
With lengths in excess of 3,000m!

ATTRIBUTES:

- Patent Pending: RSA Patent Application No 2015/01609
- Not welded or brazed.
- Cut lengths exactly as and when required.
- Minimal waste & scrap.
- Available in both **Pan Auger** and our esteemed **Fatigless™ Cross Auger** models.
- End to all traditional auger manufacturing.
- Availability: 1 August 2015

SAVINGS FOR AUGER BUYERS WHO BUY SPECIFIC AUGER LENGTHS ARE:

- Measure your **own lengths** as and when required, even on site.
- **100% Yield** savings on accurate cut-to-size lengths.

SAVINGS FOR EXISTING AUGER MANUFACTURERS ARE:

- **Labour**, up to 3 employees.
- **Floor space**, up to 150m² per machine.
- Reduce number of **Long pipes** in your workplace.
- No more additional **capital required** for auger coiler equipment.
- No more investment in **flat wire material**.
- Packing, handling and **consumables costs**.
- **Maintenance** of equipment and long **set-up times**.
- **Yield losses** of flat wire material.
- Reduced **Quality Control** and measuring equipment.
